

Procedimento para configuração de rede sem fio: iOS - iPad e iPhone

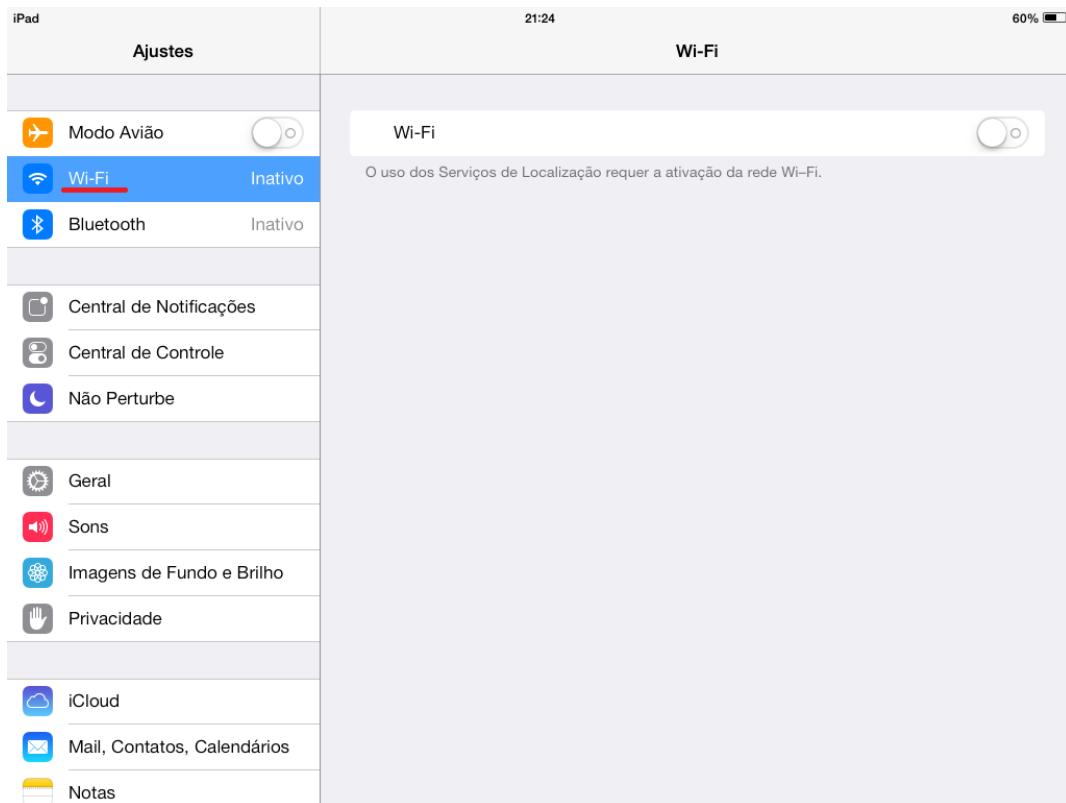

Para configurar a rede sem fio no iPad e iPhone siga as orientações abaixo:

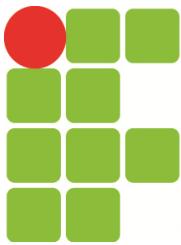

- 1) Siga os procedimentos a seguir para efetuar a conexão a rede sem fio:
 - a) **Clique no ícone *Ajustes*;**

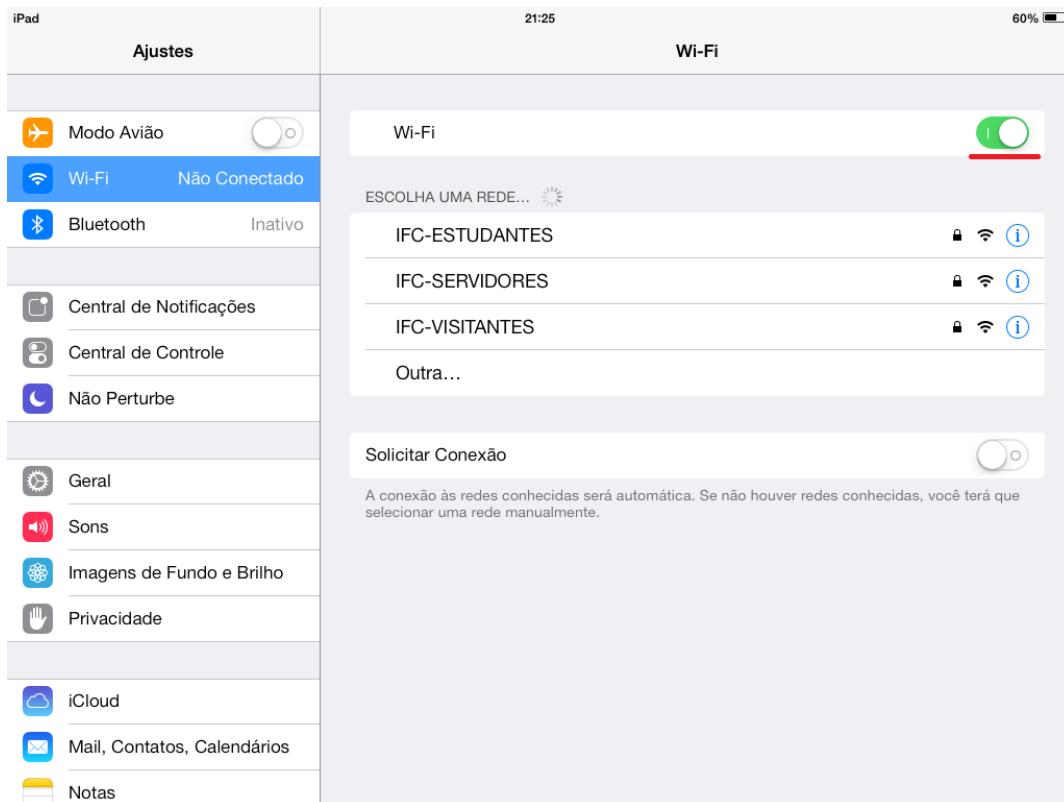

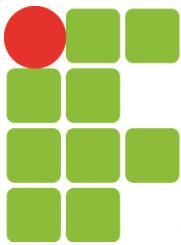

b) **Selecione** o menu no canto superior esquerdo **Wi-Fi**;

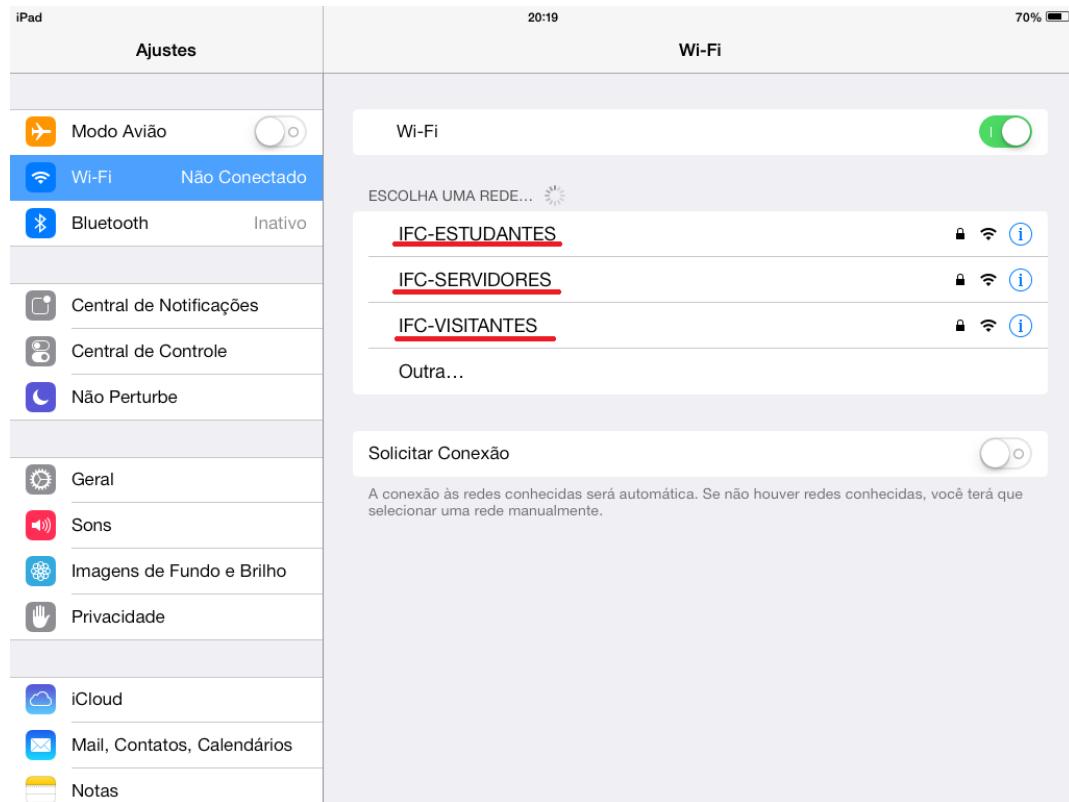

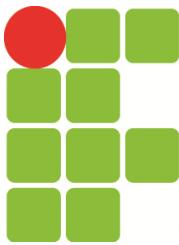

c) Caso não esteja ativada ative a Wi-fi (**O botão deve ficar na cor verde**);

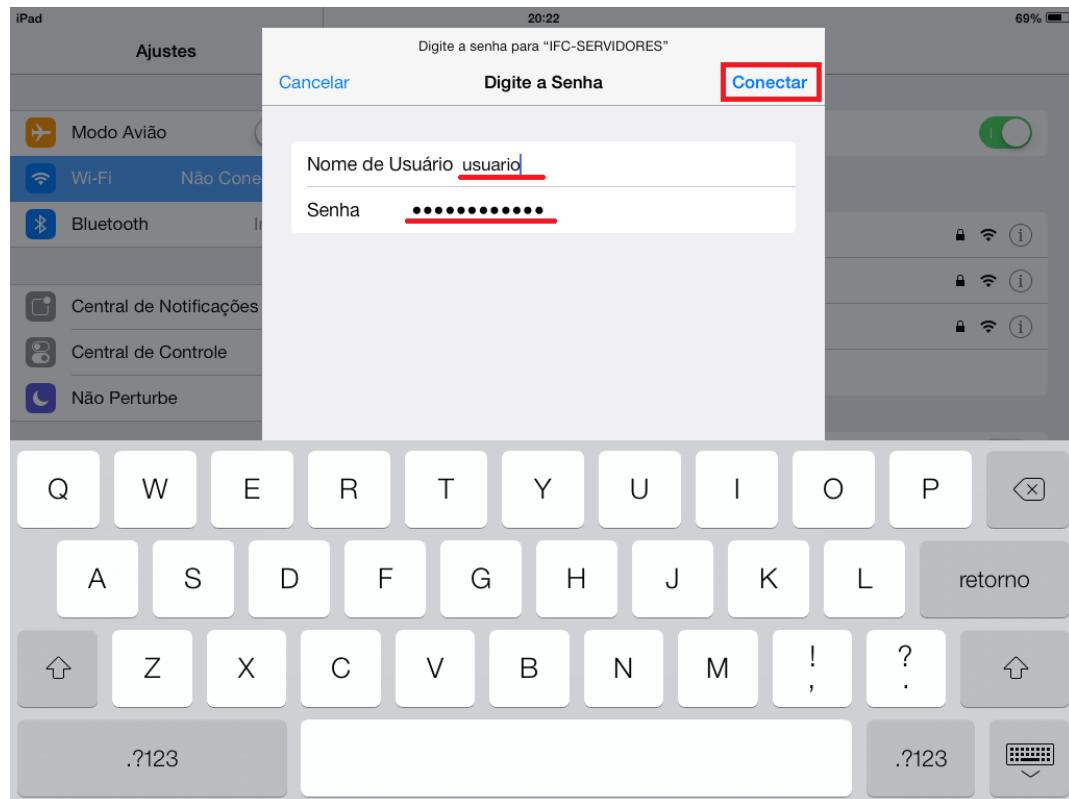

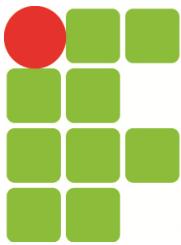

d) **Escolha uma rede** baseado no seu perfil (**IFC-ESTUDANTES, IFC-SERVIDORES ou IFC-VISITANTES**) clicando sobre ela;

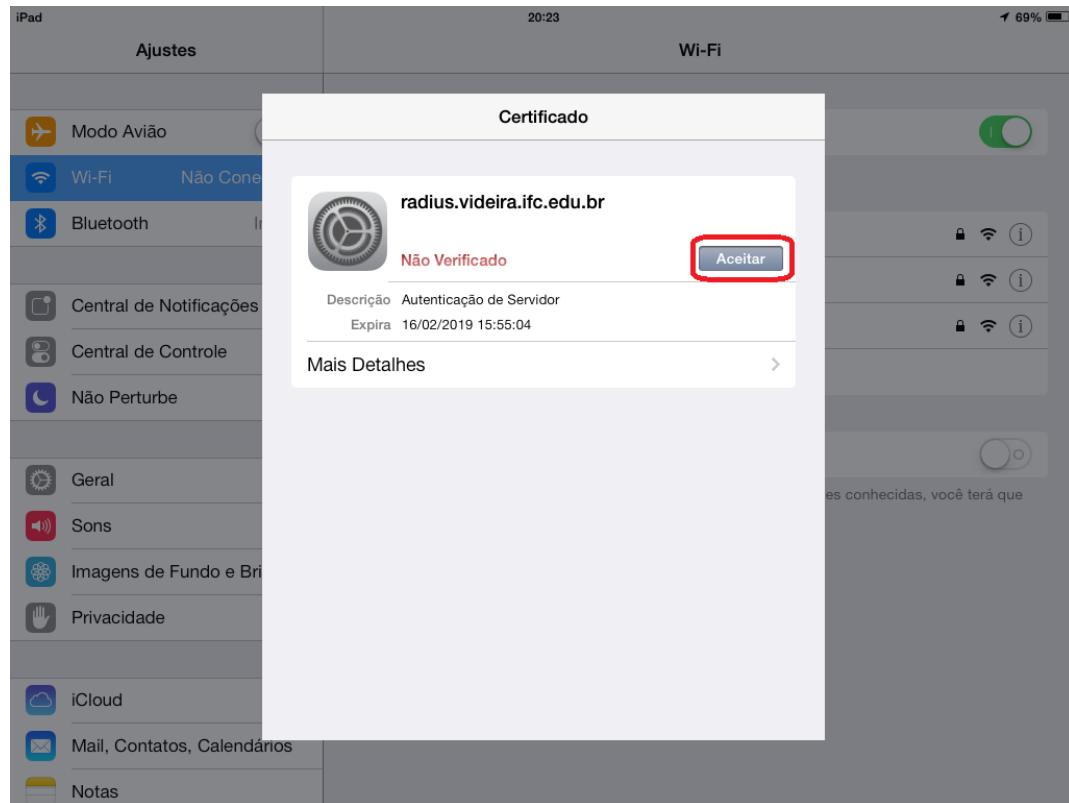

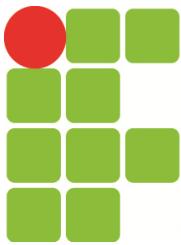

- e) Informar seu **nome de usuário** e **senha** (cadastrados na Central do Usuário – <https://ceu.videira.ifc.edu.br>) e clique em **Conectar**:

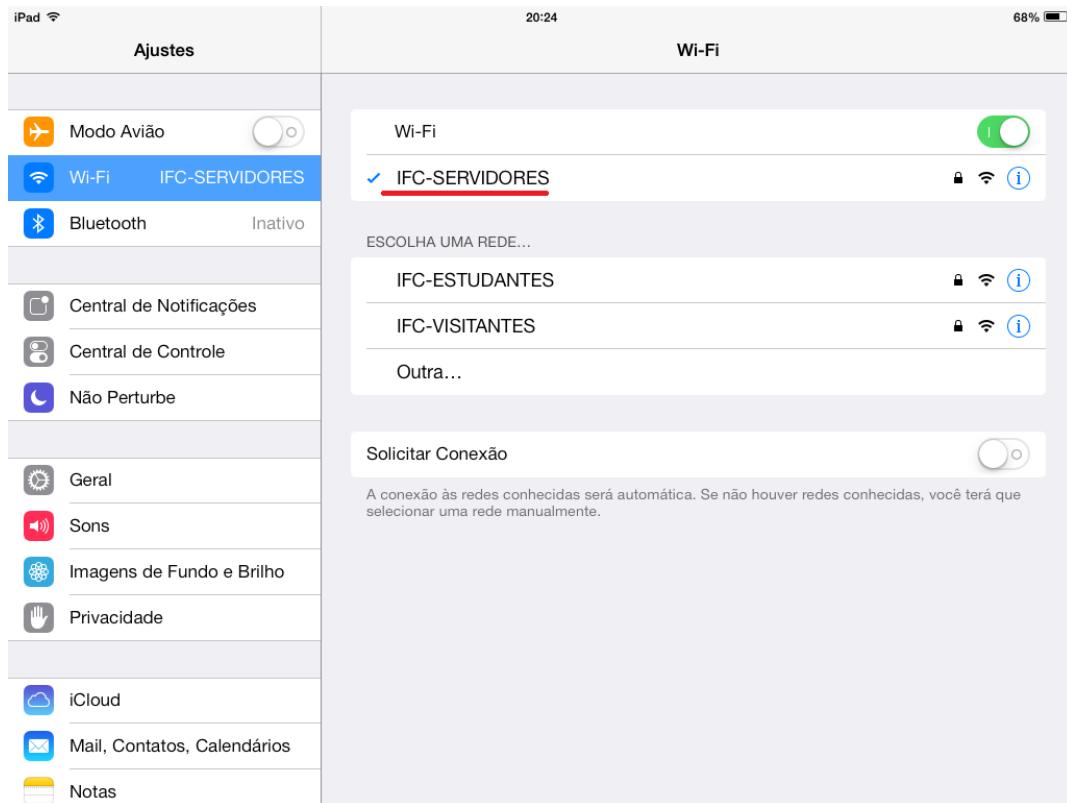

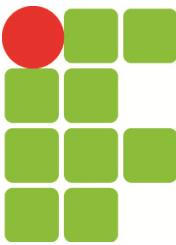

f) Aceite o certificado clicando em **Aceitar**;

g) A conexão foi realizada, você está pronto para navegar;

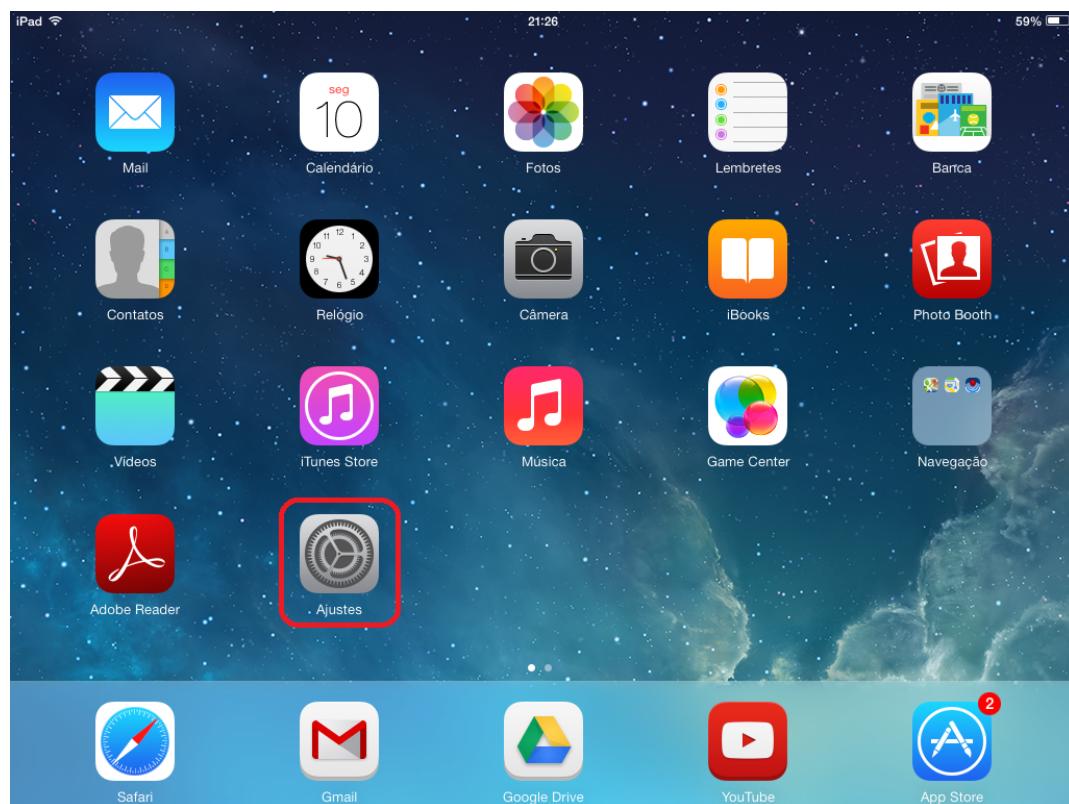

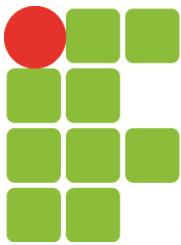

Observações:

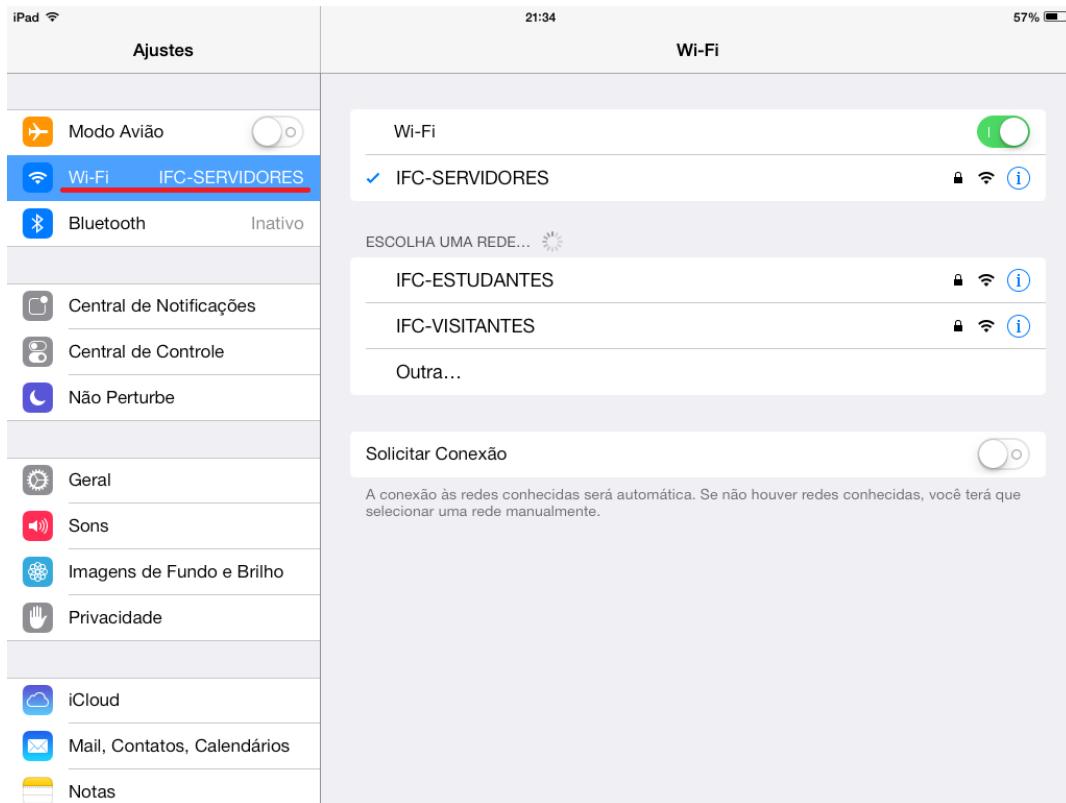

2) Deseja esquecer a rede ? Se a resposta for SIM, siga os passos abaixo:

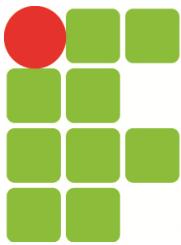

a) Clique no ícone **Ajustes**;

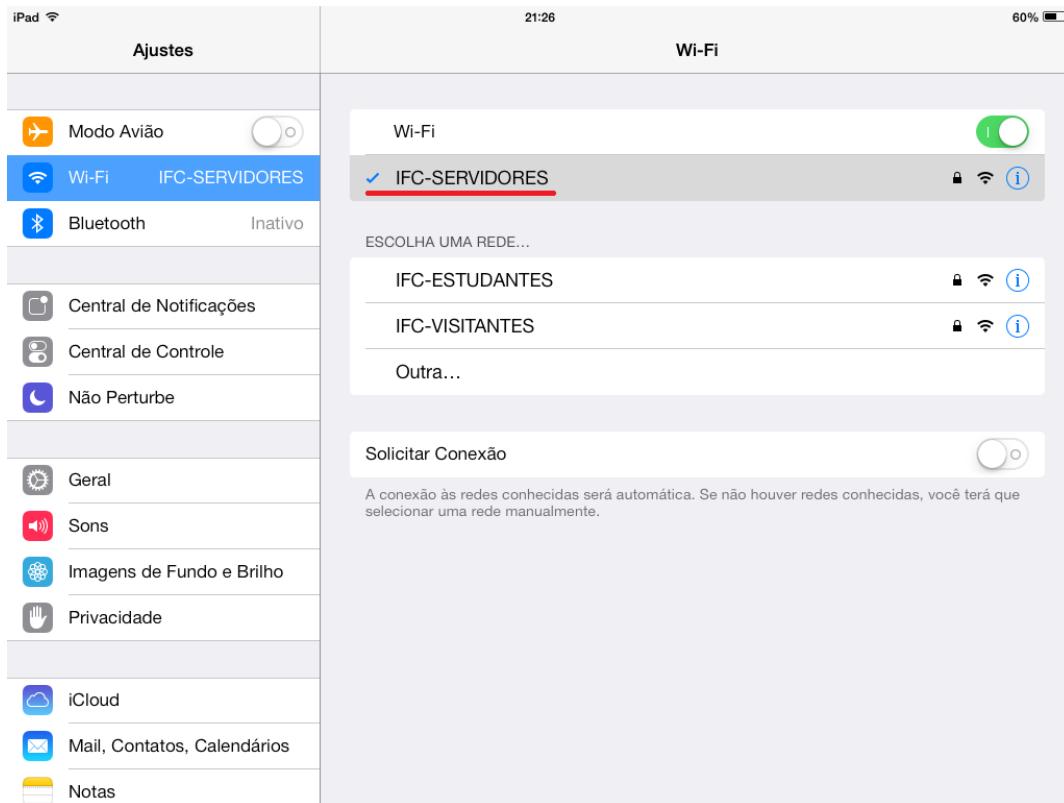

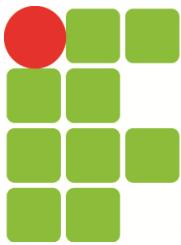

b) Selecione o menu no canto superior esquerdo Wi-Fi;

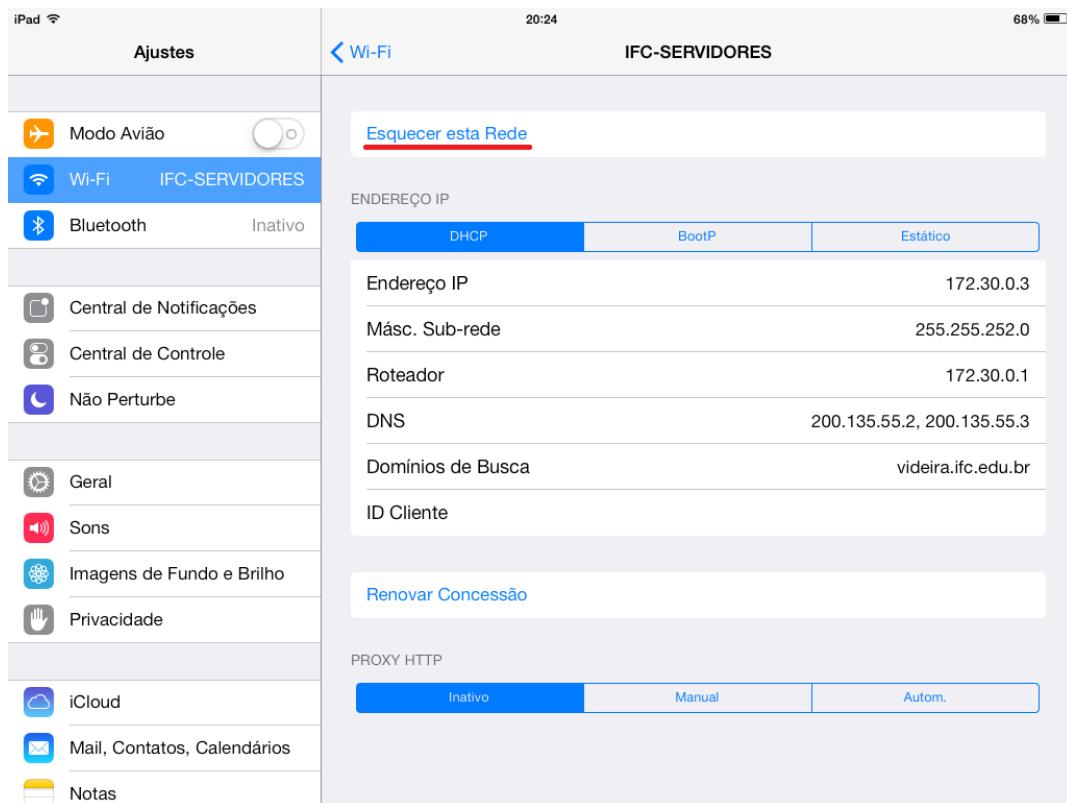

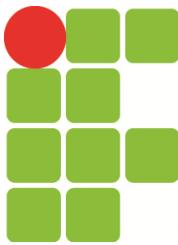

c) Clique na rede que deseja esquecer;

d) Clique em **Esquecer esta Rede**;

- e) Será solicitada uma confirmação. Caso esteja ciente, clique em **Esquecer**;
Lembre-se que você terá que repetir o procedimento para conexão a rede sem fio (passo 1) exposto anteriormente para conectar-se a rede novamente.
